

Teacher

Spotlight!

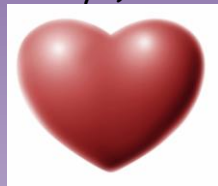

Mrs. Julie Mickleson was born March 22nd as a Aries. She doesn't have a favorite color, but if she had to pick one it would have to be a bright and vibrant color. She likes baseball, and college basketball..especially during March Madness time! Her favorite animals are horses and dogs. She has been teaching at LRIS for 7 years. When she was our age she liked to square dance. She likes sewing and crafting fun stuff. If she had to pick a different occupation, she would pick to be a craft-er. Or anything people oriented, like a banker or something like that. She said NOT a ballerina.=D

A shout out from Mrs. Mickleson,
Laughter is the
BEST medicine!

SWEET HEARTS!!!!!!!!!!
How often does your sweet heart give you sweet hearts? Like every day right?;) Well then, they don't really love you. I mean think about it. They are just trying to get you fat with all that sugary love candy. Why not give you carrots in the shape of a heart? That way it's still "lovey dovey" You'll have to go talk to your Valentine now because that's all I have to say.:)

Last month winner was Cricket Gibb. Good job Cricket. Her cool gift was bike handle bars. Geckos, lets have some fun. How many hearts are in this month's paper? Count them and put them in a student contest box with your name and your first period teacher.

Month and review by Elizabeth Tucker

the world

Obama bypasses Senate, installs new consumer chief .

Just 15 years old, Sahar Gul has become the bruised and bloodied face of woman's rights in Afghanistan. The teenage bride's eyes were swollen nearly shut as she was wheeled into the hospital seven months after her arranged marriage. Black scabs crusted her fingertips where her nails used to be.

Two hundred miles off the coast of Texas, ribbons of pipe are reaching for oil and natural gas deeper below the ocean's surface than ever before.

One of the nation's most widely planted crops - a genetically engineered corn plant that makes its own insecticide - may be losing its effectiveness because a major pest appears to be developing resistance more quickly than scientists expected.

It's one thing to make an object invisible, like Harry Potter's mythical cloak. But scientists have made an entire event impossible to see. They have invented a time masker.

In school we had the reader theaters by the dramas students.

February Calendar ☺

Dear Geckos,

Who is valentine?

Because it is time to get moving! End of trimester is on Feb. 17, and the last trimester starts on February 21! This year has kind of just flown by for me (but hey, it is my first year here).

If this one doesn't get you excited, I don't know what will, because we are not going to have school on Presidents day (February 16th by the way). And on Valentine's day , Feb. 14, we are going to have an amazing choir concert. (Looking forward to it Mrs. Harris ☺) other than that, we have school spirit day on the 24th (I am seriously wondering what student council has in stock for us this time) and, your usual, binder check and recycling every Friday. Have fun with those chocolates this month!

Sincerely,

Whitnee

PS if you want to learn how to get sweets and still eat healthy on this flowers and chocolates holiday, check out the health column. There is another fun drawing for February, too. Also, if you want to know what people prefer what movie stars, take a peek at the student life column!

Student Life By: Alivia

If you could have any movie star be your valentine, who would it be?

Girls

Whitnee: Taylor Lotner or Justin Biber

Trista: Taylor Lotner

Kaitlyn: Justin Bieber or Taylor Lotner

Mikelle: Taylor Lotner

Boys

Scott: Debby Ryan

Zac: Selena Gomez

Ethen: Selena Gomez

Noah: Selena Gomez

Logan: Selena Gomez

Zach: Selena Gomez or Megan Fox

Preston: Selena Gomez

Alex: Megan Fox, Rosie Huntington, or Taylor Swift

Teacher Spotlight! By: Rae!

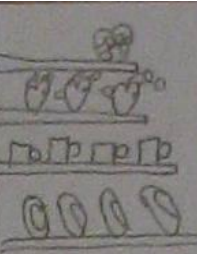

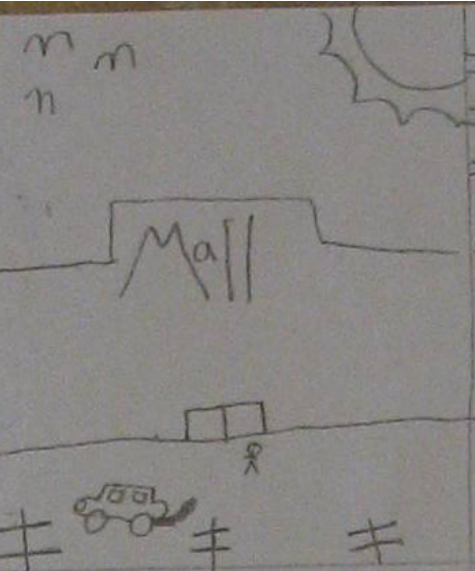

Mrs. Lisa Stolen was born on December 19th as a Sagittarius. She has been teaching here at Lava Ridge for 8 years. Mrs. Stolen teaches CTE Business. She likes dogs, And the colors Green and Blue. When she was in 6th and 7th grade she played kickball, ping-pong. She liked to go horse-back riding and hanging out with friends. She is really good with computers and...Guess what? Tiling, Sheet-rocking. Yumm...she is a Chef too! She likes Formula 1 Racing, cart racing, and some football, She like U of U! Finally someone who doesn't like BYU! If she had to pick an occupation other than teaching, it would be a web designer...OR a college professor.

**A shout out
to 7th
graders:
BEWARE OF
THE STOLENS!**

*Go Gecko's
Happy
Valentine's
Day*

Bill
&
Joe

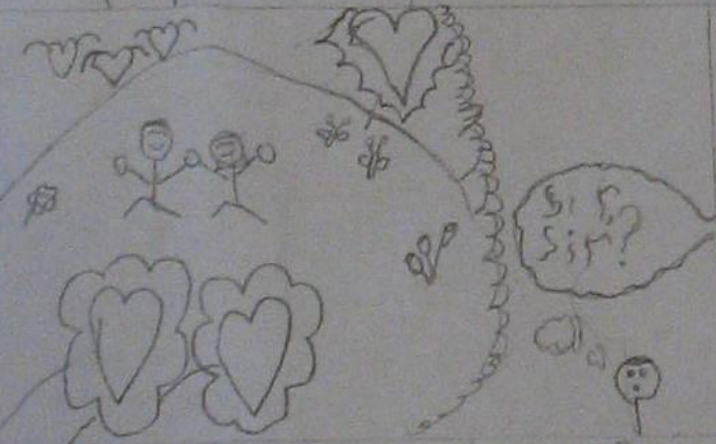

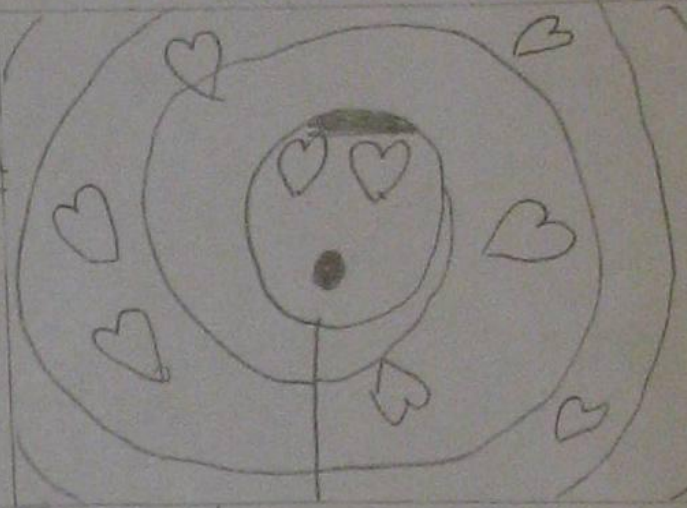

This is ridiculous!
I just need to buy some thing for my mom!

Happy Valentines Day

OK I get it, we can go.
Good!
